

CREATE YOUR OWN BRAILLE ALPHABET

To make proper, tactile braille, fill the dots with stickers/glue that you can feel with your fingers.

To make simulated braille, you can colour in the dots of the braille cells.

Braille Cell

Braille Pattern

A to J (1st row): the base letters

K to T (2nd row): A to J + dot 3

U to Z (3rd row): K to O + dot 6

W: J + dot 6
